Custom Comfort

Dr. Comfort extra depth shoes are specially designed for the unique needs of the diabetic patient.

- Based on more than 25 years of design experience and input from board-certified podiatrists.
- Extra width and depth in the toe box and forefoot area help prevent pressure on swollen feet, bunions, hammertoes and other problem spots.
- Elite custom inserts are individually molded to your feet by trained health care professionals.
- Lightweight design reduces daily fatigue.

" Fitted and furnished *exclusively* by health care professionals and it's Medicare covered "

Ask your
health care professional about the difference
Medicare-covered Dr. Comfort Shoes
can make to your health.

One in four Americans with diabetes will develop potentially serious foot problems related to the disease. However, **proper footwear** can help diabetic patients avoid unnecessary complications.

Medicare-Covered Diabetic Footwear & Inserts

Medicare provides for coverage of Dr. Comfort shoes and inserts because custom fit footwear is necessary for the comfort and overall health of the diabetic patient.

Medicare Provides for:

- One pair of **Dr. Comfort** extra depth shoes annually.
- Three pair of **Elite** inserts custom fit by your health care professional annually.
